Show Puppy Contract

I, Karen Conti (breeder) agree that to the best of my knowledge, this puppy is in good health. He/she is current on vaccinations and worming. A health record will be provided to you. The puppy is guaranteed for one year against any congenital, life threatening defects. Purchaser agrees to have this puppy examined by a veterinarian of their choice within 72 hours of purchase, to verify the health of puppy and to discuss further vaccinations and health care. If any life threatening condition is found at this time, a written, signed statement of the findings from your veterinarian must be provided to the breeder. If the breeder's veterinarian agrees with the report, the puppy will be returned and a full refund will be given. Purchaser assumes full responsibility for the health exam and any costs of returning the puppy. Puppy must be returned in the same condition in which it was received.

Purchaser will be provided with an application for full registration with the AKC. This will be provided when breeder and purchaser agree that the puppy's bite is correct according to AKC breed standard and that the puppy has no other flaws that would disallow the puppy from being shown. Application will be sent to purchaser within 6 months from the puppy's date of birth. Purchaser agrees to finish this dog to championship prior to using the dog/bitch for breeding purposes. Bitches will not be bred until second heat or later. Any offspring produced and sold must have either a show (unlimited registration) contract or a pet (limited) contract. Breeder retains breeding rights to males for the life of the dog. All expenses for shipping semen or any other breeding expenses will be the responsibility of the breeder.

I agree to purchase a male/female puppy, Sire: _____,
Dam: _____ for the purchase price of \$ _____.
